Kusayev has had the opportunity to personally grow up with some of the most talented hairdressers, working alongside his family full of cosmetologists and hairdressers. By doing so, he has been able to construct his buoyancy and have the gutless attitude to present his very own studio last Fall of 2014.

His clients include the top fashion editors and celebrities such as **Danica Patrick**, **Patti LuPone** and **Mandy Patinkin**. With the right team of dreamers, the Roman K Salon was born, which features talented artists who individually specialize in different areas of beauty to create a quite personalized experience. They are dedicated to making each individual customer feeling like a new and improved version of themselves after exiting each visit.

Kusayev’s intention was to create a fun, yet upscale full service salon experience for both clients and his talented team. The priority is to create an environment that would allow the hair, nail, and skin professional staff to feel empowered and free to express their creativity with each and every one of their clients. There is not only a personalized experience within the clients but as well as his staff which makes each visit and session a homey experience.

“I strongly believe that our clients are being offered a unique experience of both high quality craftsmanship paired with the finest client care. I absolutely love what I do and I think that comes across to both our clients and the salon team at Roman K Salon,” Kusayev said.
